Redwood Trust, Inc. Announces Dividend Distribution Tax Information for 2015

MILL VALLEY, CA – Thursday, January 28, 2016 – Redwood Trust, Inc. (NYSE: RWT) today announced tax information regarding its dividend distributions for 2015.

Shareholders should check the tax statements they receive from their brokerage firms to confirm the Redwood dividend distribution information reported in those statements conforms to the information reported here. Set forth in this press release are Redwood's expectations with respect to federal income tax. Shareholders should consult their tax advisors to determine the amount of taxes that should be paid on Redwood's dividend distributions for federal, state, and other income tax purposes.

All of the common stock dividend distributions paid during 2015 are reportable on shareholders' 2015 federal income tax returns, including four \$0.28 per share quarterly regular dividend distributions. Thus, for 2015, Redwood shareholders that held stock for this entire period should report a total of \$1.12 per share of common stock dividend distributions for federal income tax purposes.

Under the federal income tax rules applicable to real estate investment trusts ("REITs"), Redwood's 2015 dividend distributions are expected to be characterized for income tax purposes as 100% ordinary income. None of Redwood's 2015 dividend distributions are expected to be characterized for federal income tax purposes as a return of capital or long-term capital gain dividends.

As a REIT, the portion of Redwood's dividend distributions that are characterized as ordinary income under the applicable federal income tax rules are generally taxed at full ordinary income tax rates.

The table below provides more detailed information on the expected federal income tax characterization for each of Redwood's common stock dividend distributions that were paid for 2015.
